IST 263 - Intro to Front-end Web Design

Project Idea

I am planning on creating a website for Portland, Maine, the city I grew up right outside of. The site will be an informational guide for tourists who are planning to visit or are visiting the city. It will serve as a source to find things to do and see while in the city based on an opinion from a local. I really love my hometown and would love to show off the more local spots.

Content Plan

- Homepage
 - a. Text, Video, Images
- Shopping
 - a. Text, Images, List, Links
- Food & Drink
 - a. Text, Images, List, Links, Quotes
- Attractions
 - a. Text, Images, List, Video, Links
